

GROUNDPRO

PROFESSIONAL GROUNDCARE EQUIPMENT

PRESS STATEMENT

Release: Immediate

Date: January 20, 2009

New Wiedenmann UK division, Groundpro, makes its presence felt

Groundpro, the new deal direct trading division of Wiedenmann UK, gives all turf and ground care dealers across the country an opportunity to sell its products.

Included in its range are the nimble yet cavernous Pro-Cast series of bulk top dressers with all-welded steel hoppers from 2000-4750 litres. This week at BTME Harrogate, Pro-Cast unveils an optional belt-driven conveyor system which can fill truckster mounted top dressers in less than a minute and be used for filling bunkers and trenches.

Also in the Groundpro sales listing is the truly versatile Groom It multi purpose brush which caters for both natural and artificial surfaces. Among its natural grass attributes are working in wet or dry top dressings; presenting turf; clearing early morning dew; standing turf prior to cutting and used regularly it promotes healthy grass which improves ball roll. On the artificial side it uprights flattened carpet fibres instantly aiding the playability of the carpet.

For those wanting to access a fleet of some of the most robust and safety conscious mowers then look not further than Wiedenmann's low noise Super Pro series of trailed or front mounted mowers in widths of 1.3m, 1.5m and 1.8m. The ingenious tilt-up facility on the FXL allows safe and easy access without unhitching. And through Groundpro you can also deal direct for the much respected series of Wiedenmann collectors the MCS Compact 650 and the MCS XP, highly efficient and suitable for noise sensitive areas like schools, hospitals and residential areas.
