## **Testing machines and strawberries at Wiedenmann UK**

This month when Irish course specialist headed for Wiedenmann UK's operational HQ, adjacent to Glasgow airport, not only were they met with fields of turf equipment but also fields of freshly grown strawberries.

Wiedenmann UK's Operations Manager Mike James said: "At least once a year we try to bring customers and dealers from across the country to our base where they can see the entire fleet of Wiedenmann machines set up for them to test. We have all five of our fast deep Terra Spike aerators side-by-side so we can demonstrate hole spacing at speed and the versatility available. We also have all our collectors out on display and award winning Heather Management System as well as the robust mowers and blowers for which Wiedenmann are renowned."

"This year our show days coincided with the strawberry harvest at the next door farm so when we'd familiarised ourselves with all the equipment we just tested the strawberries as well!" grinned Mike James.

Wiedenmann will bring its range to Saltex, see them at stand V26.

**Ends**
