

**NEW****Combi Clean 2350™**

Combi Clean 2350™ for tractor front linkage and commercial mowers up to 35HP.

- An immensely versatile combined sweeping machine that sweeps both snow and dirt
- Sweeps efficiently and evenly using a two piece plastic cylinder broom (Diameter 420mm)
- Can be driven by either a hydraulic unit or a p.t.o. shaft
- Swivelling broom operates from either left or right side
- Quick and easy brush changing – no need to strip whole unit down
- Protective rubber coating on sweeping arm – prevents wear and tear
- Two vertically adjusting jockey wheels that set operating height
- Sweeps at two speeds for both snow and dirt when used with hydraulic unit
- Ideal budget machine
- Buy the container option and collect as you sweep
