

NEW**Snow Master 3400™**

Snow Master 3400™ folding blade for two-axle tractors up to 25HP.

- Ideal for removing snow and slush
- Five settings for adjusting the blade
- Choose left, right and straight working positions
- For safety the rake blades fold down automatically when ramming obstacles, afterwards a tensioned spring movement returns them to the working position
- Serially equipped with hydraulic pivot adjustment and slide shoes adjustable in height

Snow Master 3400™

SM 3400 125 1.25m (comes with plastic wear strip)

SM 3400 140 1.4m (comes with plastic wear strip)
