

Designed for use on both fine and outfield turf areas, the 1.35m, 1.65m and 2.10m wide Terra Combi sorrel roller package will help aerate your turf. The spiking tines on the sorrel rollers cut through surface thatch, break down incrustations at the surface and also help remove algae problems.

Terra Combi™ Sorrel Roller 135, 160 & 210

TC 135 SR Base Package

Terra Combi 1.35m 3pt linkage mounted base frame including support wheels and spike roller. Outer shells and 8mm tines for sorrel roller

TC 160 SR Base Package

Terra Combi 1.6m 3pt linkage mounted base frame including support wheels and spike roller. Outer shells and 8mm tines for sorrel roller

TC 210 SR Base Package

Terra Combi 2.1m 3pt linkage mounted base frame including support wheels and spike roller. Outer shells and 8mm tines for sorrel roller

Terra Combi™ Sorrel Roller & Overseeder

Adding an overseeder to the base package will help the professional improve turf that is worn and infiltrated with weeds or foreign grass without breaking up the soil. Working together the sorrel roller and over seeder bring an intensive contact between the seed and soil.
